Damietta ,Egypt | Mariamabozayed0@gmail.com | [01220870021](tel:01220870021)

PROFILE SUMMARY

I'm Frontend Web Developer , graduated from faculty of Engineering , Passionate Frontend web Developer with a solid background in building user-friendly, responsive, and visually appealing web applications. Proficient in modern technologies such as HTML, CSS, JavaScript, and frameworks like React and Angular. Adept at collaborating with cross-functional teams to deliver seamless user experiences and optimize performance. Always eager to learn and implement innovative solutions to solve complex challenges in web development.

EDUCATION

New Damitta Institute Of Engineering and Technology (2018:2023)

- Major : electronics and communication engineering
- Bachelor's degree in electronics and communication engineering
- Graduation degree : very good
- Graduation project : smart irrigation
- Graduation project grade :Excellent

Achievement: Awarded certificate of IEEE capitation

PROFESSIONAL EXPERIENCE

Digital Egypt Pioneers Initiative (DEPI) (React front end web development) (10/2024-4/2025)
Demonstrator At Higher Institute Of Engineering And Technology(New Damietta) (10/2023)

SKILLS

Technical Skills

- Frontend developer : (HTML5 – CSS -JavaScript -Bootstrap -Typescript – SASS)
- Frameworks & libraries : (React.js)
- Tools & version control : (Git | Github)

Soft Skills:

- Speaking English fluently
- Highly organized
- Team work or individually
- Problem solving

Language :

Arabic : native
English : very good

PROJECTS

- **Smart farm application** (graduation project)

The smart irrigation system is Feasible and cost effective for optimizing water resources for agricultural. This irrigation system allows cultivation in places with water scarcity thereby improving sustainability. It proves that the use of water can be diminished.

The use of solar power in this system is significantly important for organic crops

- **Finder project**

This project is a professional directory and listings designed to connect users with certified local contractors across various services, including plumbing, electrical work, landscaping, and m

Developed using HTML and CSS

- **Memory game**

This project is an interactive web-based application developed using HTML, CSS, and JavaScript. This classic game challenges players to match pairs of cards by recalling their positions, enhancing memory and focus skills.

- **Quiz game**

This project challenges players with a series of questions, providing instant feedback and tracking their performance. built with HTML, CSS, and JavaScript

- **Bootstrap project**

This project is a fully responsive website designed and developed using Bootstrap.

The focus was on creating a modern and user-friendly interface that adapts seamlessly across all devices

TRAINING :

- Training At Damietta Port Authority (studied network) (11/2023-12/2023)
- Training At The Egyptian Electricity Generating Station (8/2022-9/2022)
- Training at IMT Company (studied diploma embedded system) (7/2022-8/2022)
- Work Shop At We Company In Mobile Communication . (9/2021)
- Training At Smart Home Company (studied web developer) (8/201-9/2021)

COURSES AND CERTIFICATES

- React front end web development (Digital Egypt Pioneers Initiative) (10/2024-4/2025)
- Diploma in embedded system (Imt Company) (7/2022-8/2022)
